1. Register for the seminar

3-Day RCRA Seminar

2010 Seminar location:

Guaynabo, PR: June 15-17, 2010

Registration fee for 3 days: \$1,400

Continental breakfast, lunch, and snacks served each day are included in fee.

2. Add a Compliance CD

Purchase a 2010 RCRA Compliance CD at the 2010 attendee price of \$295 (\$200 savings):

Add a 2010 CD for \$295 plus registration fee.

CD ships with registration packet if payment or purchase order is received at the time the order is placed. Otherwise, CD ships once payment is received.

3. Provide your method of payment

Payment is due by the first day of the seminar, or if a purchase order is used, payment is due 30 days from the date the purchase order is issued.

Check—please write attendee name and the McCoy invoice number on your check

Invoice Electronic Funds Transfer (EFT) Government Training Form

Purchase Order Visa MasterCard American Express

Credit card number Expiration date (month and year)

Please print name as it appears on credit card

Signature of credit card holder

Understand RCRA.

The RCRA regulations are extremely complex and the volume of information needed to stay in compliance is daunting. To help you understand the regs, we use a practical engineering approach in our training.

We teach the principles and processes underlying RCRA because if you understand how the regs work—it will strengthen your ability to solve tough compliance problems. McCoy presents complex material in a straightforward and logical way. We reinforce the learning with case studies and examples. And attendees bring questions and insights that stimulate invaluable discussions.

Take a look inside, then join us for a 3-day RCRA seminar in beautiful Puerto Rico.

GUAYNABO, PR

JUNE 15-17, 2010

Making hazardous waste determinations? McCoy's seminar is practical and informative.

Whether you're just getting started with the regs or you're a highly experienced professional, this seminar will expand your knowledge and provide a greater understanding of RCRA.

Here's how. McCoy's expert instructors are engineers and scientists with extensive experience in analyzing and interpreting environmental regulations, so they're uniquely qualified to guide you through the material. Our books and course notes are the best in the business. And we use real-world examples following each topic to help solidify what you've learned. So you can apply your knowledge where it really counts—back on the job.

1 RCRA Fundamentals

Four questions every generator should ask.

Day 1 provides you with a good understanding of RCRA fundamentals and ways to avoid costly mistakes. We also explain how the major exemptions and exclusions work.

The agenda for Day 1 includes:

- Introduction
- RCRA Information Sources
- Discarded Materials
- Identifying "Solid Wastes"
- Regulatory Exclusions and Exemptions
- Listed Wastes
- Spent Solvent Issues, K-Wastes
- Commercial Chemical Products (P- and U-Wastes)
- Identifying Characteristic Wastes
- The Mixture and Derived-From Rules

 **Need directions to the PRMA?**
Visit www.mccoyseminars.com.

2 Critical Generator Issues

Practical guidance for RCRA compliance.

On Day 2, you'll learn the most cost-effective ways to manage your hazardous wastes. We identify the key RCRA requirements for both small quantity and large quantity generators and provide practical guidance on how to comply.

On Day 2, you will learn about:

- Three Classes of Generators/Waste Counting
- Satellite Accumulation
- 90/180-Day Accumulation
- Hazardous Waste Container Issues
- Manifesting
- Recordkeeping
- Treating Wastes Without a Permit
- Universal Wastes
- Problem Wastes (e-Wastes, Aerosol Cans, and Rags)
- Recycling, including solvent recycling
- Enforcement—Most Common Violations
- Case Study

3 Advanced RCRA Topics/ Land Disposal Restrictions

Step-by-step procedures for LDR compliance.

Day 3 will help you understand some of the more complicated aspects of the regulations. These include land disposal restrictions (LDR), air emission standards, and the contained-in policy.

On Day 3, you will learn about:

- RCRA Air Emission Standards (Subparts AA, BB, and CC)
- The Contained-In Policy
- Spills
- Used Oil Management
- LDR Treatment Standards for Hazardous Wastes
- LDR Notifications and Certifications
- Rules for Applying Characteristic Codes to Listed Wastes
- LDR Treatment Standards for Contaminated Soil
- LDR Treatment Standards for Hazardous Debris
- Determining if Dilution is Allowable
- Review of Recent Changes in the RCRA Regs

Date and Location

June 15-17, 2010

Puerto Rico Manufacturers Association (PRMA)

International Marketing Center

Tower II, Suite 702

State Road 165

Guaynabo, PR 00968

Phone (787) 641-4455 Website www.prma.com

Seminar Fee

The seminar fee is \$1,400 for 3 days.

Registration

Register at www.mccoyseminars.com, by fax, phone, or mail. See registration form on the back of this brochure.

Directions

For PDF directions, go to www.mccoyseminars.com.

Language

The McCoy and Associates Puerto Rico seminar will be conducted in English.

Seminar Format and Hours

The 3-day seminar is from Tuesday through Thursday. Class begins at 8:00a.m. and ends at 5:00p.m. each day.

Meals

Continental breakfast, lunch, and snacks are provided each day. All meals are included in the seminar fee.

Course Materials

Materials include *McCoy's RCRA Reference*, which contains the full text of 40 CFR Parts 260-280 and Part 148, and *McCoy's RCRA Unraveled*, a detailed discussion of interpretations clarifying the regulations. We also provide extensive daily course notes that are updated before each seminar.

Post-Seminar Tech Support

We answer questions, review case studies, and clarify a range of examples during our seminars. If you have questions after completing the seminar, call us at (303) 526-2674 and ask for technical assistance or email us at info@mccoyseminars.com.

Certification

After completing the seminar, you'll receive a certificate indicating the seminar dates, location, hours attended, and Continuing Education Units (CEUs) awarded.

Multiperson Discounts

Discounts are available at two qualifying levels: 5-9 people from the same organization and location attending the seminar receive a 10% discount; and 10 or more people from the same organization and location attending the seminar receive a 25% discount. The discount will be applied after the seminar once attendance has been reconciled.

Cancellations

Cancellations are handled on an individual basis. Please contact us at (303) 526-2674 if your plans change.

Guarantee

If you are not completely satisfied with a McCoy seminar, simply return the course materials to the instructor who will arrange for a full refund of your registration payment.

Onsite Training Opportunities

McCoy offers two- or three-day seminars conducted at your facility and tailored to meet your specific needs. Contact us at (303) 526-2674 for details.

Instructor Biography

Rodger A. Goffredi, P.E., Vice President and Director of Publishing, has been conducting seminars and editing environmental publications for more than a decade. Rodger is responsible for editing *McCoy's RCRA Unraveled* and *McCoy's RCRA Reference*, the books used in our seminars. His thirty years of regulatory analysis and environmental engineering experience bring insight and perspective to his lectures.
